**CS Important Message: Think Cell Charts Now Available**

Think-cell software is a plug-in for PowerPoint and is used to improve creating charts for business presentations. The software improves the efficiency in producing high-quality deliverables. This is fully integrated into Microsoft's PowerPoint environment. More detailed information about think-cell chart can be found on the think-cell company site: <http://www.think-cell.com/products/chart/overview.shtml>.

View the [enhanced charts](#) this software helps to create. Download and install the software. Visit: <http://computing.chicagobooth.edu/computing/research/thinkcell.asp>.

**Clients Affected**

Faculty, Staff and Students

**What you should do**

- Download and install the software.
- Visit: <http://computing.chicagobooth.edu/computing/research/thinkcell.asp>.
